

**John Silverio P. Eng., CEM**  
**Manager, Project Development**  
**Ameresco Canada**

John has over 16 years of experience in the field of energy management, spanning across areas such as energy retrofit project development, energy analysis, monitoring & verification, energy auditing, building simulation, commodity consulting, and submetering.

Work experience has been garnered from both the ESCO field as well as from the utility field.

John has a Mechanical Engineering degree from the University of Toronto and is a Certified Energy Manager. He holds memberships in ASHRAE, and the Association of Energy Engineers (AEE).

John is responsible for overseeing project development at Ameresco Canada.
