SECTION 36
OPEN SPACE (OS) ZONE

36.1 GENERAL PURPOSE OF THE OS ZONE

The Open Space (OS) Zone is a two-tier zone. The OS1, OS2 and OS3 Zone variations are intended to be applied to areas located outside of conservation lands (hazard lands, floodplain and steep slopes) and areas which are not environmentally significant. The OS1 Zone variation is typically applied to City and private parks with no or few structures. The OS2 Zone variation is applied to City and private parks with structures and includes a broader range of larger uses which can generate more traffic and activity. It is the only variation which permits structures. All the other zone variations permit very limited or no structures. The OS3 Zone variation is applied to cemeteries which have no alternative uses.

The OS4 and OS5 Zone variations are the most restrictive open space zone variations and are applied to lands which have physical and/or environmental constraints to development. A very limited range of structures is permitted subject to site specific studies. The OS4 Zone variation is intended to be applied to hazard lands; specifically the floodway, steep slopes and lands that may be subject to erosion as well as landfills and contaminated sites. Development within the OS4 Zone is regulated pursuant to the Conservation Authorities Act. The variation is intended to provide for development of low impact recreational facilities that do not normally include structures or buildings, and require locations within or adjacent to the floodplain. Buildings may require floodproofing, dry and safe access, etc. if located in flood fringe areas, subject to the Conservation Authorities Act.

The OS5 Zone variation applies to important natural features and functions that have been recognized by Council as being of City-wide or regional significance and identified as components of the Natural Heritage System on Schedule "B" of the Official Plan and regulated by policies in Section 15.3 of the Official Plan. These include Environmentally Significant Areas; Significant Woodlands; Locally Significant Wetlands; Significant Wildlife Habitat; Habitat of Vulnerable Species; River, Stream and Ravine corridors; Upland Corridors; and Fish Habitat and Naturalization Areas. In order to protect the identified features and functions, permitted activity is limited to a range of low-impact uses associated with passive recreation, conservation and ecosystem management. Development and site alteration is permitted only if it has been demonstrated through an appropriate study that there will be no negative impacts on the features and functions for which the area has been identified.

36.2 PERMITTED USES

No person shall erect or use any building (where permitted) or structure (where permitted), or use any land or cause or permit any building or structure to be erected or used, or cause or permit any land to be used, in any variation for any use other than the following uses: (Z.-1-051390)

36.3 REGULATIONS

No person shall erect or use any building or structure, or use any land or cause or permit any building or structure to be erected or used, or cause or permit any land to be used, in any OS Zone variation except in conformity with the regulations as set out in Table 36.3.

1) LANDS WITH BOTH ECOLOGICAL (OS5 AND ER) AND HAZARD CONSTRAINTS (OS4)

In situations where the OS5 Zone variation is applied to hazard lands including the floodway, flood fringe and steep slopes, the hazard features will still need to be addressed/studied as a result of any development or site alteration. Conversely, where the OS4 Zone variation is applied to natural features the significance of those features will still need to be addressed/studied as a result of any development or site alteration. (Z-1-051390)
36.4 SPECIAL PROVISIONS

The following zone variations apply to unique or existing situations and are not the standard OS Zone variations. If a regulation or use is not specified, the list of permitted uses and/or the regulations of Section 36.2 and/or Section 36.3 shall apply.

a) OS1 Zone Variation

1) OS1(1)
   a) Permitted Uses:
      i) Pollution control plants.

2) OS1(2)
   a) Additional Regulations:
      i) Setback for structures 18 m (59.0 ft) and services both above and below grade from Highway 401 road allowance existing on the day this amendment was passed. (Z.-1-091879)

3) OS1(3)
   a) Regulations:
      i) No minimum lot frontage requirement.
      ii) No minimum lot area requirement. (Z.-1-112020)
