Notice of Public Meeting #1
Municipal Class Environmental Assessment Study for
Pottersburg Creek Slope Stability Remediation Works located
South of Hamilton Road Bridge

The City of London is conducting a Municipal Class Environmental Assessment (EA) study for proposed Pottersburg Creek Slope Stability Remediation Works to stabilize the exposed and unstable portion of the east bank of Pottersburg Creek located south of the Hamilton Road bridge.

The City has retained Riggs Engineering Ltd. to complete this Municipal Class EA study in accordance with the requirements for Schedule ‘B’ projects as described in the Municipal Engineers Association’s “Municipal Class Environmental Assessment (EA)” document (October 2000 as amended in 2007 & 2011). The Municipal Class EA process for this study includes public and review agency consultation, an evaluation of all viable stabilization options, an assessment of potential impacts of these options, and recommendations regarding the draft preferred alternative. A scoped Environmental Impact Study is being prepared as part of the Environmental Assessment.

The Public Meeting is scheduled for:

Date: February 13, 2013
Location: London District Christian Secondary School, 25 Braesyde Avenue
Time: 7:00 pm – 9:00 pm (Brief presentation at 7:30 pm)

The City and Consulting Team is seeking input from the public, homeowners and review agencies regarding this study and the proposed recommendations, to assist in meeting the requirements of the Municipal Class EA process under the Environmental Assessment Act. With the exception of personal information, all comments received will become part of the public record. Please contact either one of the following project team members if you would like to be included on the mailing list or have any questions.

Pat Prodanovic, Ph.D., P.Eng.
Water Resources and Marine Engineer
