HELPING YOU MAKE GREENER CHOICES

SEPTEMBER/OCTOBER 2020

The City of London is continuing to develop a Climate Emergency Action Plan, and is seeking input.

Your choices make a difference, and we need everyone's help.

New opportunities to participate are launching this fall. Residents and businesses can share feedback and help shape our community's response to climate change.

Get involved and learn more about what action you can take.

Coming soon in your mail!

Look for your new Waste Reduction & Conservation calendar for 2020-2021.

You can also access your collection schedule online by downloading the free Recycle Coach app, or visit london.ca/garbage

Same program. New trucks!

Look for new recycling trucks on London streets.

Miller Waste Systems is the City contractor for recycling services and has introduced new recycling trucks this fall.

What's different?

The new trucks are **rear loading** similar to garbage trucks. Recyclables will be collected in the rear of the truck. These trucks have greater capacity and a compaction mechanism. That means that the drivers can collect more recyclable materials each load and be more efficient.

What hasn't changed?

Continue to sort your recyclables into paper and containers. Collection staff will still place your recyclables in two separate compartments on the truck.
