Construction Notice:
THAMES VALLEY PARKWAY
NORTH BRANCH CONNECTION

Date: June 21, 2019

To: Business owner, resident and/or property owner

The City of London will soon be starting a construction project in your area. This letter provides details about the project and important information on how construction may impact you.

Project Location:
The map below shows the construction project limits. Work will occur within Ross Park, off of Richmond Street North, along the north edge of the Thames River and within the North London Athletic Fields.

![Map of Construction Project Limits]

Work Details:
- Construction of a new Multi-Use Pathway Connection between Richmond Street and Adelaide Street;
- Construction of 2 new bridges across the North Branch of the Thames River;
- Construction of a Temporary Construction Access along the east limit of Scouts Canada property; and
- Construction of a permanent pedestrian entrance to the new pathway from Tetherwood Blvd.

Proposed Timeline:
This project is largely off road, and off of existing pathways. Due to its location in the natural environment a number of timing windows need to be respected. Initial survey and layout work is anticipated to start in early July 2019, with construction activities starting in August 2019.

- Start date: Early July 2019
- Estimated completion date: September 2020

Construction Impacts:

Accessibility
Some disruption of the existing TVP within Ross Park and the North Athletic Fields is to be expected. Detour routes around the construction zone will be provided.

Pedestrians
Some disruption of the existing TVP within Ross Park and the North Athletic Fields is to be expected. Detour routes around the construction zone will be provided.
Motorists
No Impacts.

Cyclists
Some disruption of the existing TVP within Ross Park and the North Athletic Fields is to be expected. Detour routes around the construction zone will be provided. Cyclists should exercise caution around construction sites and follow all construction signs.

Transit Users
No Impacts.

Contact Information:
The City is committed to keeping you connected and informed during construction. Please reach out to your City or Consultant Project Manager at any time during construction.

Temporary Conditions
Dust, Noise and Vibrations
You may experience dust, noise, service interruptions and other inconveniences during construction. Construction equipment can also cause vibrations. Please ensure you protect any valuables susceptible to damage.

Work Hours
Work will typically take place from 7:00am to 7:00pm Monday to Friday, with work after hours and on weekends as required to accommodate the completion of the project within the established schedule and to minimize impacts of the work.

Thank you in advance for your cooperation.

Sincerely,

Karl Grabowski, P. Eng.
Transportation Engineer, Transportation Planning & Design Division
